FIAP MONOCHROME DEFINITIONS

A black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome work with the various shades of grey. A black & white work toned entirely in a single color will remain a monochrome work able to stand in the black & white category; such a work may be reproduced in black & white in the catalogue. On the other hand a black and white work modified by partial toning or by the addition of one color becomes a color work (polychrome) to stand in the color category.

Aerial Photography Policies (ethical): One of the tenets of photography is that the safety and well-being of the subject, photographer and surroundings is of paramount importance over the capturing of the photograph. The purpose of this section is to prevent any interference with other individuals or animals which will or may cause a disturbance in their normal activity or disrupt the way an individual or animal interacts with its environment.

1. May **not** fly a drone above people for the purpose of photographing their activity, unless permission is granted in writing
2. May **not** fly or photograph **animals** in their natural habitat, especially nesting areas and locations where the animal is already under stress (winter survival, migratory feeding, protecting young). Photographing scenery/landscapes is permissible.
3. May **not** fly or photograph in any designated wilderness area

Aerial Photography (International): Many countries have their own rules and regulations governing aerial photography, especially drone, usage. It is the responsibility of the Photographer (pilot) to be informed of the polices of the country or region in which they are flying (photographing). When submitting aerial images that depict a foreign country the photographer must include a statement that all applicable rules and regulations of that country have been observed.

DEFINIȚIA FOTOGRAFIEI MONOCHROM
O lucrare alb-negru acoperă zone de la gri foarte închis (negru) până la gri foarte deschis (alb) este o fotografie monochromă cu o multitudine de nuanțe de gri. O lucrare alb-negru, tonată în totalitate într-o singură culoare, rămâne a lucrare monochromă și poate fi acceptată la categoria alb-negru; în catalog, o asemenea lucrare va fi tipărită în alb-negru. Pe de altă parte, o lucrare alb-negru tonată parțial sau la care a fost adăugată o culoare, devine o lucrare color (policromie) și va fi încadrată la categoria color.

Politici de fotografie aeriană (etică): Unul dintre aspectele fotografiei este că siguranța și bunăstarea subiectului, fotografului și a împrejurimilor sunt de o importanță extrem de importantă asupra capturii fotografiei. Scopul acestei secțiuni este de a preveni orice interferență cu alte persoane sau animale care vor sau pot cauza o perturbare în activitatea lor normală sau pot perturba modul în care un individ sau un animal interacționează cu mediul său.

1. **Nu** poate zbura o dronă deasupra oamenilor în scopul fotografierii activității lor, cu excepția cazului în care se acordă permisiunea în scris
2. **Nu** poate zbura sau fotografia animalele în habitatul lor natural, în special în zonele de cuibărit și în locațiile în care animalul este deja sub stres (supraviețuirea iernii, hrănirea migratorie, protejarea tinerilor). Fotografierea peisajelor este permisă.
3. **Nu** poate zbura sau fotografia în nicio zonă desemnată ca Arie Naturală Protejată.

Fotografie aeriană (internațională): Multe țări au propriile lor reguli și reglementări care reglementează fotografia aeriană, în special drone. Este responsabilitatea fotografului (pilotului) să fie informat despre politicile țării sau regiunii în care zboară (fotografiază). Atunci când trimite imagini aeriene care prezintă o țară străină, fotograful trebuie să includă o declarație conform căreia toate normele și reglementările aplicabile din țara respectivă au fost respectate.
