EXHIBITION REQUIREMENTS

IMAGE AND ENTRY REQUIREMENTS

This exhibition is open to anyone; however, an entry may be rejected when the Sponsor or the Exhibition Organizers, in their reasonable discretion, believes the entry does not conform to exhibition rules and these Conditions of Entry. Membership in any photographic organization is not required.

Sanctions: Entries will not be accepted from any entrant who is currently sanctioned by PSA. Entry fees are not refundable in these circumstances

PSA Star Ratings

To receive proper Star ratings credit from PSA, entrants must provide their names and country exactly the same in each exhibition. Aliases are not permitted. Please contact PSA in the event of name changes or relocating to another country. Using one's name differently in different exhibition exposes the entrant to the risk that many of their acceptances may not be recognized by PSA Star Ratings.

Image Creation

Entries must originate as photographs (image-captures of objects via light sensitivity) made by the entrant on photographic emulsion or acquired digitally.

Certification:
By virtue of submitting an image, the entrant certifies the work as his or her own. Images may not incorporate elements produced by anyone else (for example: clip art, images or art by others downloaded from the Internet). **Aliases are not allowed.**

Reproduction
The entrant permits the sponsors to reproduce all or part of the entered material free of charge for publication and/or display in media related to the exhibition. This may include low resolution posting on a website. Note: Entrants who indicate that their images may not be reproduced or used "will not be eligible for awards" or inclusion in audio-visuals of the exhibition "and could be subject to disqualification" by the exhibition sponsors. The exhibition assumes no liability of any misuse of copyright

Alteration and Computer Generation Subject to Divisional restrictions (particularly Nature, Photo Travel, and Photojournalism) images may be altered, either electronically or otherwise, by the maker; adjustments to enhance images or creatively modify images are allowed providing the underlying photograph is retained in a way that is obvious to the viewer. Images may not be constructed entirely with a computer, and must be the sole work of the author

Re-use of accepted images: Once an image has been accepted in this exhibition it may not be entered again in any future instances of this exhibition. It may, of course, be entered in any other PSA/FIAP recognised exhibitions but **must always have the same title**.

Entry: An Entry consists of, up to and including, four (4) images entered by a single entrant into the same Section. An entrant may only enter a specific Section once.

Titles:
Each image must have a unique title **that is a description of the image**. That unique title must be used for entry of that image or of an identical Image into any and all PSA-Recognized exhibitions. Titles must be 35 characters or fewer. No titles may be visible to the judges, and nothing in the image may identify the maker. Titles may not include file extensions such as .jpg or .jpeg (or any other camera capture filenames such as IMG 471). Titles may not consist of personal identifiers possibly augmented by a number; or include words such as "untitled" or "no title". Titles may not consist solely of numbers unless those numbers are prominently contained within the image, such as a contestant number in a race.

Color and Monochrome:
Color and Monochrome images from the same capture that share substantial pictorial content in common will be considered the same image and must be given the same title.

The Exhibition will be conducted in accordance with the rules of the PSA

An entrant's images will not be presented to the judges consecutively. An entrant's four images will be distributed throughout four rounds of judging in that section. Distribution of images will be in the same round order as submitted by the entrant.

SUBJECT MATTER AND SECTION DEFINITIONS

Statement on Subject Matter applicable to all sections
The fundamental rule that must be observed at all times and **applies to all sections** offered in exhibitions with FIAP patronage or PSA recognition is that **the welfare of living creatures is more important than any photograph.** This means that practices such as baiting of subjects with a living creature and removal of birds from nests, for the purpose of obtaining a photograph, are highly unethical, and such photographs are not allowed in any exhibition with FIAP patronage or PSA recognition. Under no circumstances may a living creature be placed in a situation where it will be killed, injured or stressed for the purpose of

obtaining a photograph. This rule applies regardless of whether or not the creature being killed, injured or stressed is visible in the captured image.

There are also concerns about the use of aerial photography, drones, helicopters, low flying aircraft. These should not cause any interference with other individuals or animals which causes a disturbance in their normal activity or disrupt the way any individuals or animals interact with their environment.
Entry in this exhibition is conditional on accepting these policies. The content of images must comply with these General Conditions and with the Division and Section definitions listed in these conditions. Images that - in the sole opinion of the judges or the Exhibition Organizers - do not comply, will be disqualified so the entrant may be aware of the problem when considering entry into other exhibitions with FIAP patronage/PSA recognition.
Further details on the PSA's drone policy may be found at https://psa-photo.org/index.php?psa-policies#drone

All Images entered MUST comply with the PSA, FIAP and GPU Definitions below.
Images failing to do so will not be judged.

OPEN Color Definition
Any image that satisfies the general rules may be submitted in the Open section. Any subject, theme or technique is eligible. Images that have been manipulated extensively should be submitted in the Experimental section.

PSA Monochrome Definition
An image is considered to be Monochrome only if it gives the impression of having no color (i.e. contains only shades of grey which can include pure black and pure white) OR it gives the impression of being a greyscale image that has been toned in one color across the entire image. (For example by Sepia, red, gold, etc.) A greyscale or multi-colored image modified or giving the impression of having been modified by partial toning, multi-toning or by the inclusion of spot coloring does not meet the definition of monochrome and shall be classified as a Color Work.
For the purpose of this exhibition, only greyscale images are allowed in monochrome sections. Toned images are not allowed **Greyscale Monochrome** images may be entered for Nature, Photojournalism and Photo Travel but toned images are not permitted for these sections.
Monochrome images may not be entered in PID Color Sections.

PORTRAIT AND BODY Definition
Center of interest is the human face and body in all its forms and manifestations. Portrait and fine art nude photography. Portraits of people of all colors, races, religions, the whole range of human feelings. Live photography, outdoor photography as well as studio portraits. Men, women, children. The human face as a reflection on emotion and life experience.
Fine-art photography, taken outdoors or under studio conditions, full of idea, creativity, with a touch of erotic mood, which depicts the nude human body with an emphasis on form, composition, emotional content, and other aesthetic qualities.
This category calls for the most beautiful landscapes from all over the world. Best panoramic landscapes. With or without people, at any weather condition and seasons, at the very best light. Sea / water and under waterscapes, desert / arctic / icy mountain and forest landscapes, cityscapes – whatever you like! Show us the beauty of the world we live in! We expect spectacular and imaginative shots beyond the usual perspective!

PSA/FIAP Nature Definition
Nature photography records all branches of natural history except anthropology and archaeology. This includes all aspects of the physical world, both animate and inanimate, that have not been made or modified by humans.
Nature images must convey the truth of the scene that was photographed. A well-informed person should be able to identify the subject of the image and be satisfied that it has been presented honestly and that no unethical practices have been used to control the subject or capture the image. Images that directly or indirectly show any human activity that threatens the life or welfare of a living organism are not allowed.
The most important part of a Nature image is the nature story it tells. High technical standards are expected and the image must look natural. Adding a vignette or blurring the background during processing is not allowed.
Objects created by humans, and evidence of human activity, are allowed in Nature images only when they are a necessary part of the Nature story.
Photographs of human-created hybrid plants, cultivated plants, feral animals, domesticated animals, human-created hybrid

animals and mounted or preserved zoological specimens are not allowed.
Images taken with subjects under controlled conditions, such as zoos, are allowed.
Controlling live subjects by chilling, anaesthetic or any other method of restricting natural movement for the purpose of a photograph is not allowed.
No modification that changes the truth of a Nature image is allowed. Images may be cropped but no other technique that removes, adds or moves any part of the image is allowed.
Techniques that remove elements added by the camera, such as dust spots, digital noise and lens flare are allowed.
Complete conversion of colour images to greyscale monochrome is allowed. Partial conversion, toning and infrared captures or conversions are not allowed.
Images of the same subject that are combined in-camera or with software by focus stacking or exposure blending are allowed.
Multiple images with overlapping fields of view that are taken consecutively and combined in-camera or with software (image stitching) are allowed.
Attention is drawn to the PSA Statement on Subject Matter which applies to all sections

Images from events or activities arranged specifically for photography, or of subjects directed or hired for photography are not permitted. Close up pictures of people or objects must include features that provide information about the location.
Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowable adjustments are removal of dust or digital noise, restoration of the appearance of the original scene, and complete conversion to greyscale monochrome. Other derivations, including infrared, are not permitted. All images must look natural.

Attention is drawn to the PSA Statement on Subject Matter which applies to all sections

Vignettes and Borders

For the purpose of this exhibition vignettes are not allowed in Photo Travel Digital images. Any border added must be a single border of white or grey, no greater than 3 -5 pixels in width.

Sea / water and under waterscapes, desert / arctic / icy mountain and forest landscapes, cityscapes – whatever you like! Show us the beauty of the world we live in! We expect spectacular and imaginative shots beyond the usual perspective!

STREET LIFE, ARCHITECTURE & URBAN SCAPES

Covering the whole range of Street Photography, Architectural Photography and Cityscape Photography. Street photography is photography that records unposed scenes in public places (streets, parks, restaurants, stores, museums, libraries, airports; train, bus, and subway stations, etc). The primary subject is people and/or symbols of people, at rest or in motion, alone or with others, going about their everyday activities. This include street portraits, candid street photography, still life, socio – documentary street photography, urban landscape. Show architecture in harmony with the surrounding landscape and environment. See well known places under a new perspective. We are not interested in “postcard esthetics”, we want modern and contemporary images of modern and contemporary architecture. Bring architecture and sights in contrast to people, landscape, nature and environment and produce connections between people and architecture/sights.

ACTION/MOVEMENT/SPORT Definition

World around us is constantly in motion. Some things move slowly others move very fast. Everything that moves is the focus in this section. Feel the movement, the action spot and the dynamic from all kind of sports, speeding cars, nature’s ocean waves, moving clouds, nature species in struggle to survive, changing seasons, etc. Movement or action has to be the dominant or

important part of the photo. Any possibilities of photography to suggest movement can be used to show movement and speed to the viewer - for example by moving the camera or by using long term exposures.

PSA

If, at any time, it is determined in the reasonable discretion of the exhibition organizer or the judges before, during, or after the judging of an exhibition that an entrant has submitted entries where one or more images may fail to comply with these Conditions of Entry, including the stated definitions, the exhibition organizers reserve the right to delete the entry from the exhibition and void any or all acceptances or awards in connection with the exhibition. Fees may be forfeited or refunded in these circumstances. The entrant acknowledges that the decision of the exhibition organizers or the judges is final

In order to ensure that images comply with the Conditions of Entry and definitions, the exhibition organizers may carry out reasonable measures to verify that:

a)the images are the original work of the entrant and

b)the images comply with the rules and definitions as set out in these Conditions of Entry

These steps include, but are not limited to, questioning any entrant, requiring the submission of RAW files or other digital files representing the original capture of the submitted image(s), confronting the entrant with evidence that one or more submitted images fails to comply with the Conditions of Entry (also known as Entry Rules), and offering the entrant a reasonable opportunity to provide counter evidence to refute the exhibition organizer's evidence by a set deadline. Such entries that are not cleared or are still questionable after the entrant has presented evidence may be considered in breach of these Conditions of Entry, and declined. Such entries may be referred to PSA for further investigation of possible ethics violations

PSA retains the right to investigate in any way all complaints/suspicions of breaches of entry conditions, impose sanctions if deemed necessary, void the acceptances of any image found to violate the PSA rules, include the entrant's name on the list of sanctions provided to Exhibitions, and share such investigations with FIAP. Entrants automatically agree to these terms by the act of entering the Exhibition and agree to cooperate with any investigation.

If another party is submitting images on the entrant's behalf, the entrant will still be held responsible for adhering to these Conditions of Entry (Entry Rules) **and will be subject to sanction for any violations** to these Conditions of Entry and PSA's Statement of Ethics that may result. If another party is processing images for an entrant or submitting images on the entrant's behalf, the entrant will still be held responsible for adhering to all Conditions of Entry including the specific conditions in the relevant definitions

FIAP NOTICE In order to have legal authority on those who do not respect the rules of FIAP, the organiser must make sure that all participants of an online event under FIAP Patronage tick a box next to which the following text is stated:

"I hereby expressly agree to FIAP document 018/2017« Conditions and regulations for FIAP Patronage » and FIAP document 017/2017« Sanctions for breaching FIAP regulations and the red list ». I am particularly aware of chapter II « Regulations for
